Hiring Manager

Google

Re: Application for Data Analyst

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Data Analyst position at Google. With a strong foundation in Data Analysis, SQL, Python, and a genuine drive to deliver meaningful results, I am confident I would be a valuable addition to your team.

Throughout my career, I have developed strong practical experience in data analysis through academic projects and self-driven learning, where I worked extensively with tools such as Python, SQL, Excel, and Power BI. My experience primarily involves collecting, cleaning, and analyzing data to extract meaningful insights that support informed decision-making. During my projects, I performed data cleaning and preprocessing using Python libraries like Pandas and NumPy, ensuring data accuracy and consistency. This experience has sharpened my ability to tackle complex challenges and collaborate effectively — skills I am eager to bring to Google.

I am highly interested in this Data Analyst position because it perfectly aligns with my skills, career goals, and passion for working with data to solve real-world problems. I have always been curious about how data can be used to uncover patterns, generate insights, and support better decision-making, and this role provides the ideal opportunity to apply and further develop these abilities in a professional environment. Through my academic projects and self-learning, I have built a strong foundation in data analysis using tools such as Python, SQL, Excel, and Power BI. I am particularly drawn to Google's

culture of innovation, and I believe my expertise in Data Analysis and SQL aligns closely with the goals of this role.

My academic background — B-Tech Computer-science with AI ,GITA AUTONOMOUS COLLEGE — has provided me with a rigorous theoretical foundation that complements my practical experience.
